

ONLINE DATING

Are you a hopeless romantic? Do you ever wonder how two people could have possibly met each other? One in ten Internet users have used a dating website. Eleven percent of Internet users have used a dating website, while eighty nine percent said they have not used a dating website.

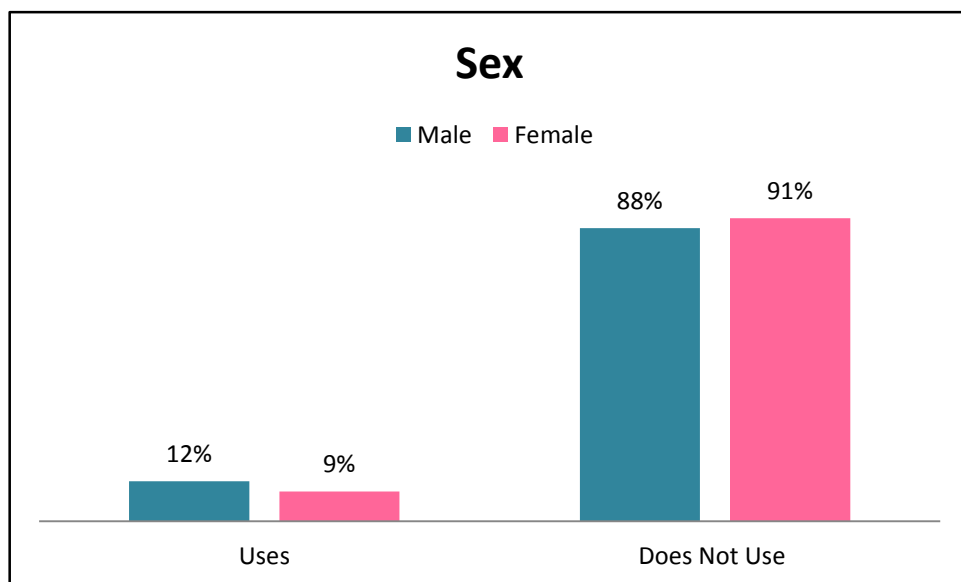

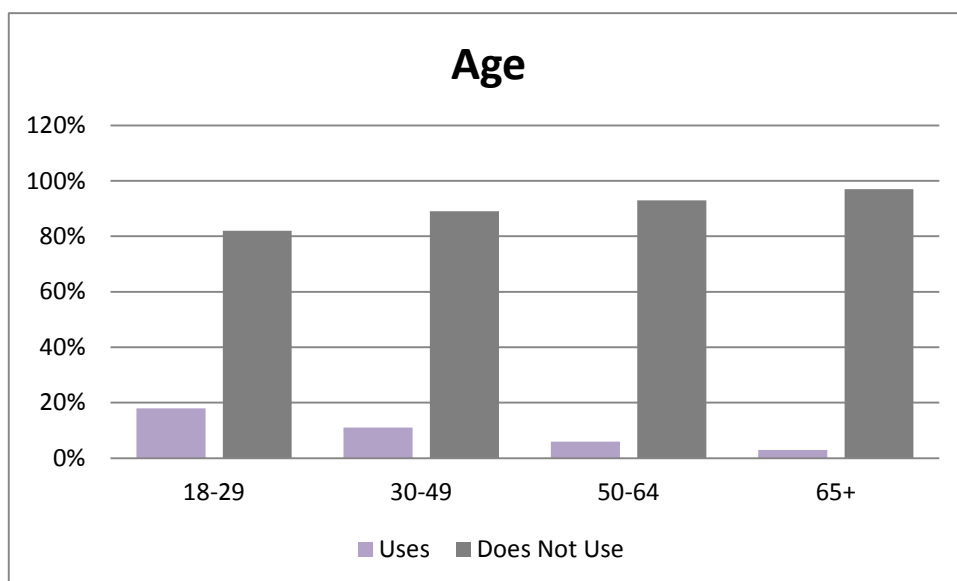

Figure 1
This graph depicts the percentage of online dating users by sex. The males have the females by just a hair.

Figure 2
This graph displays the amount of online dating users by age. Approximately eighteen percent of 18-29 year olds use an online dating site. Only three percent of users 65+ use the sites.

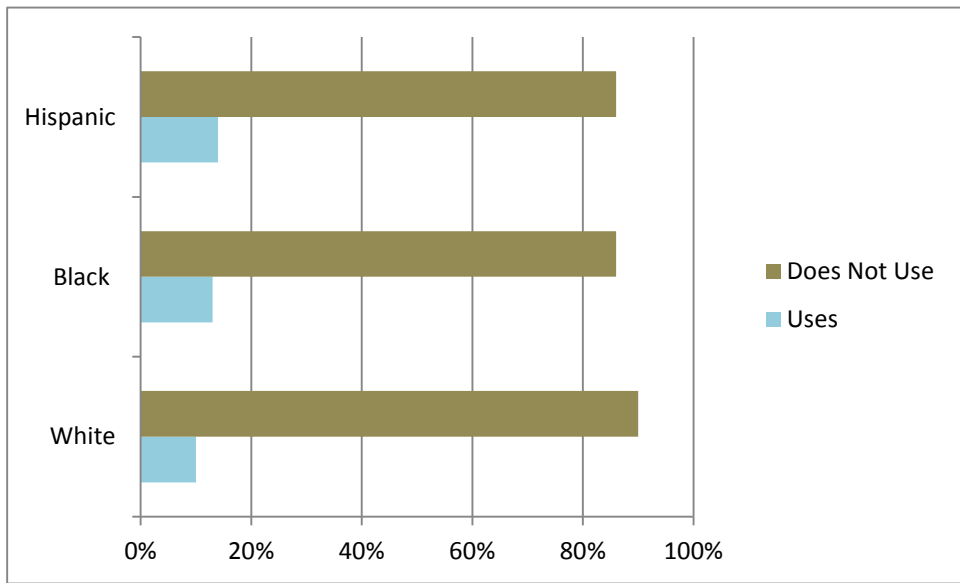

Figure 3
The amount of online dating users by race is shown above by this bar graph.
